Assessment, Rigor, and Vertical

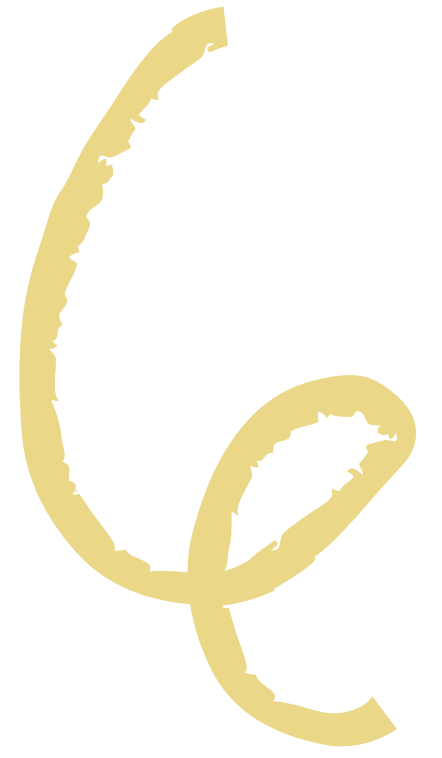

Alignment

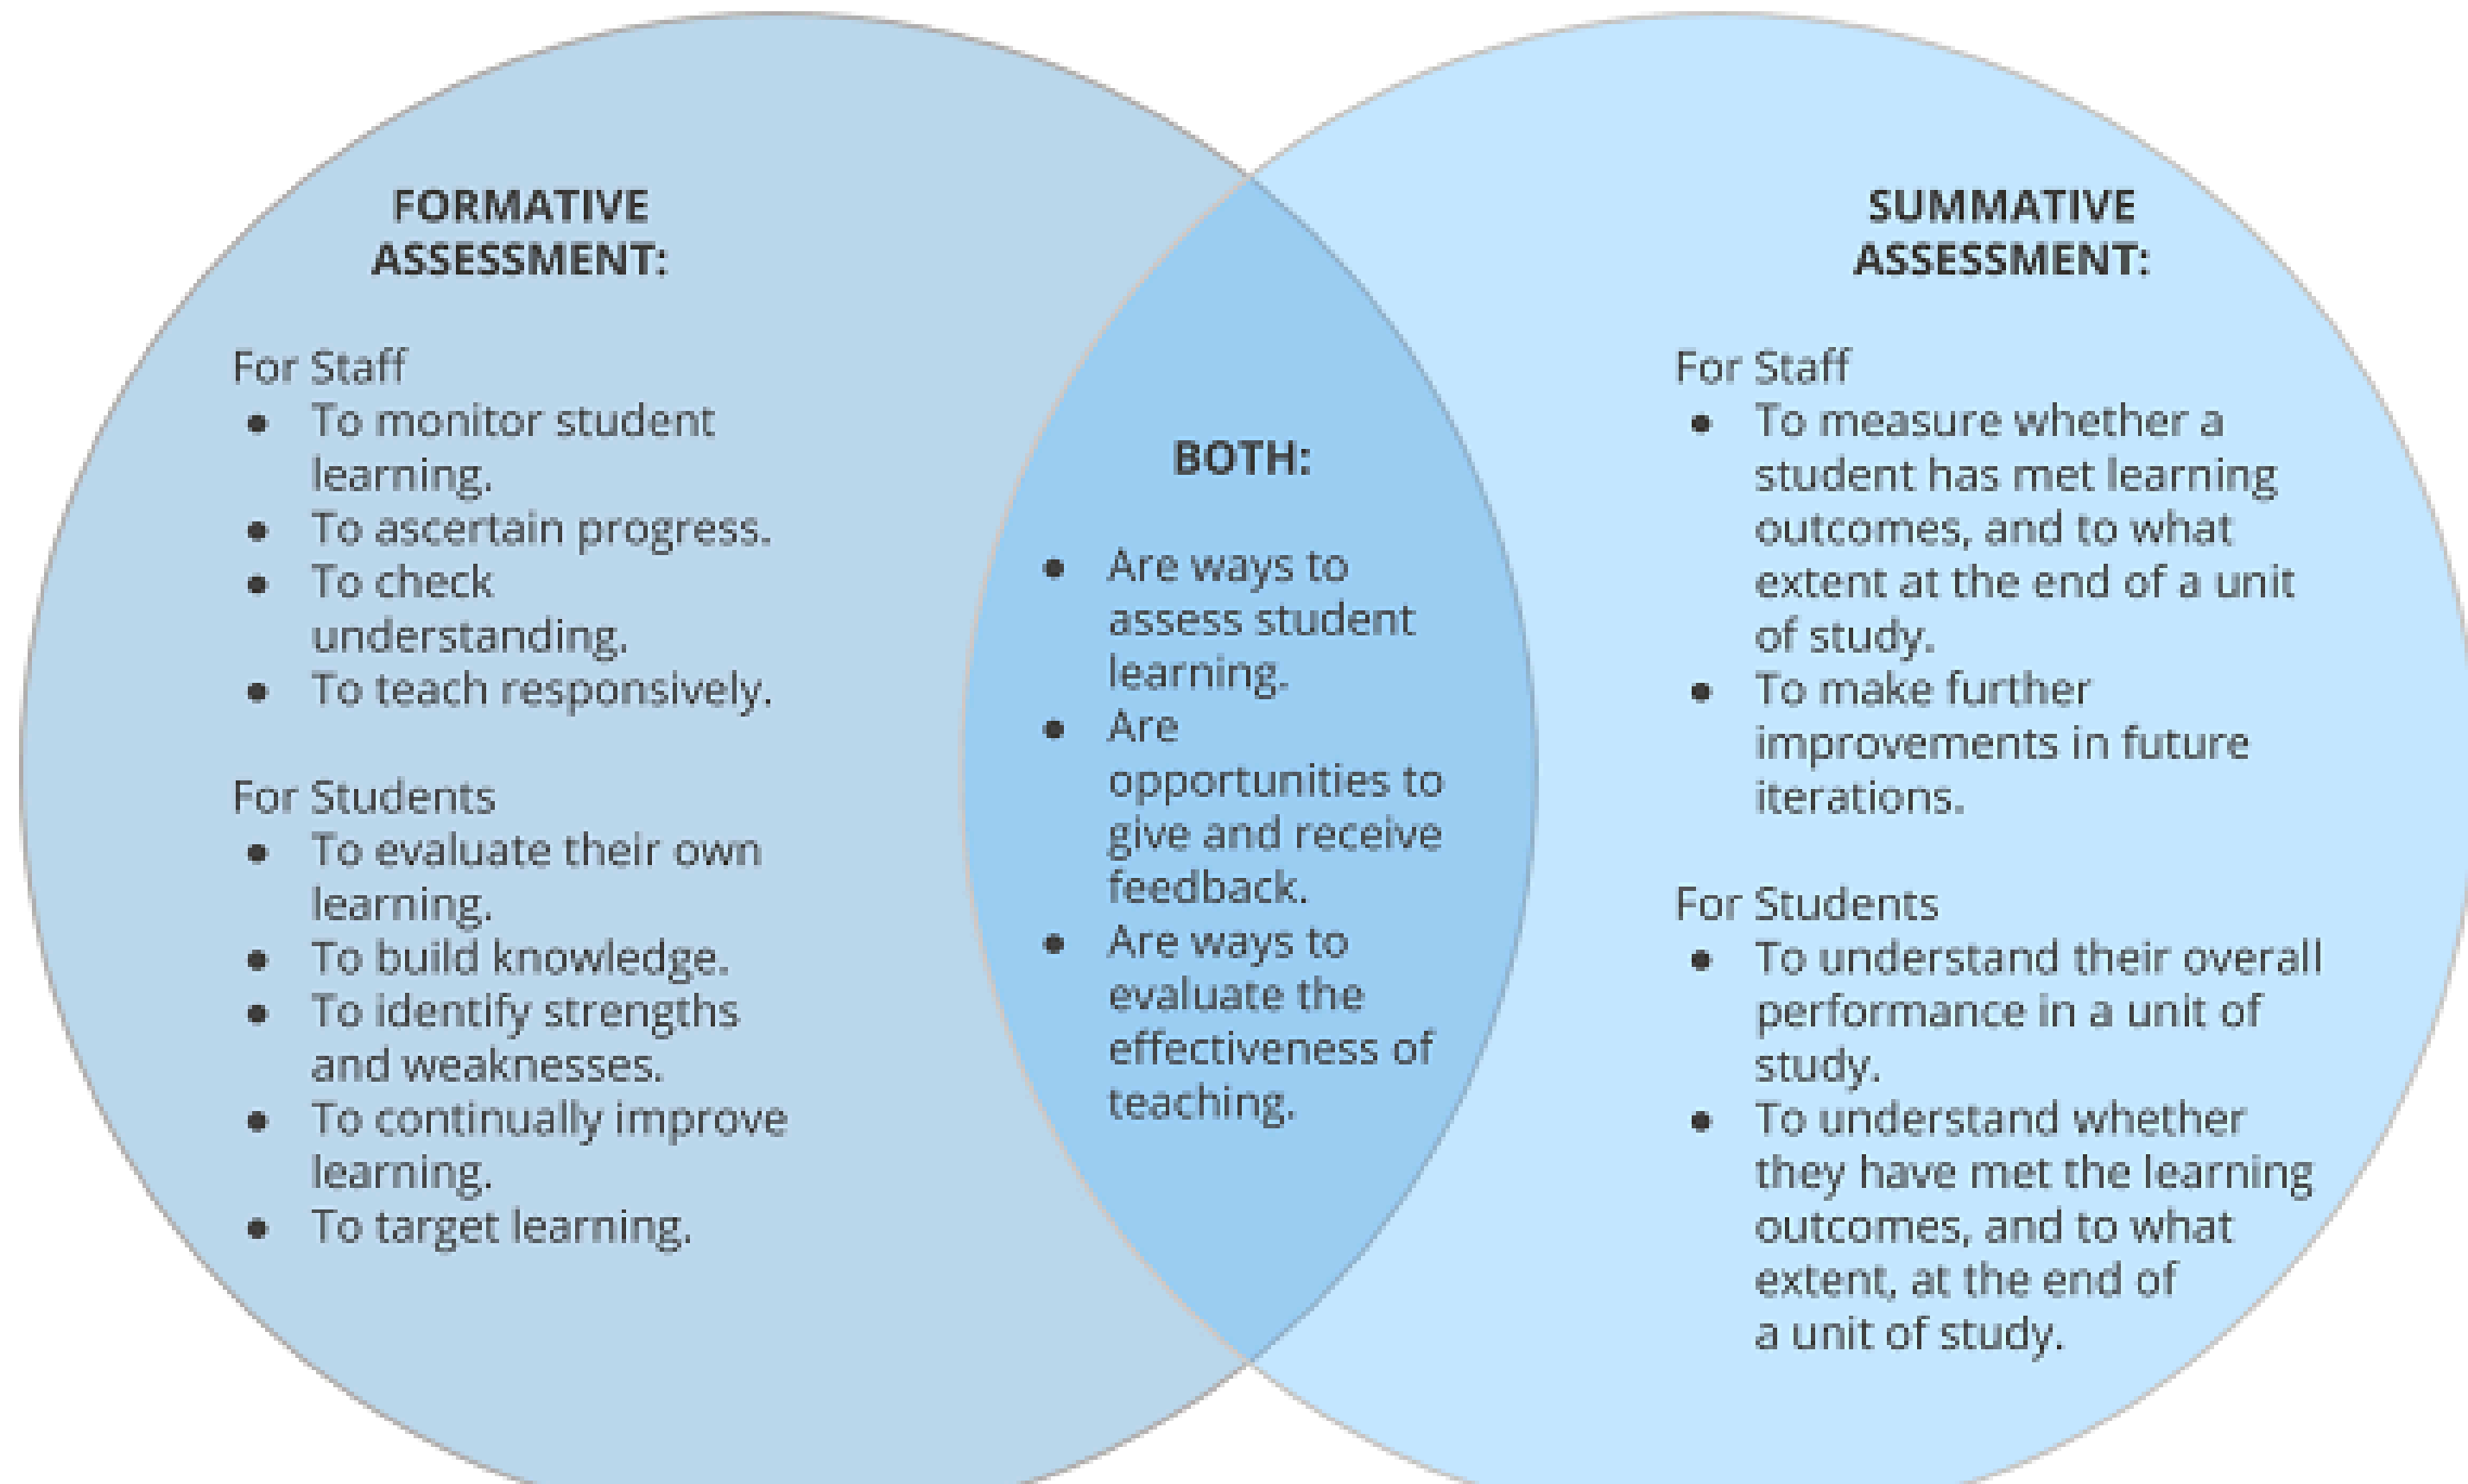

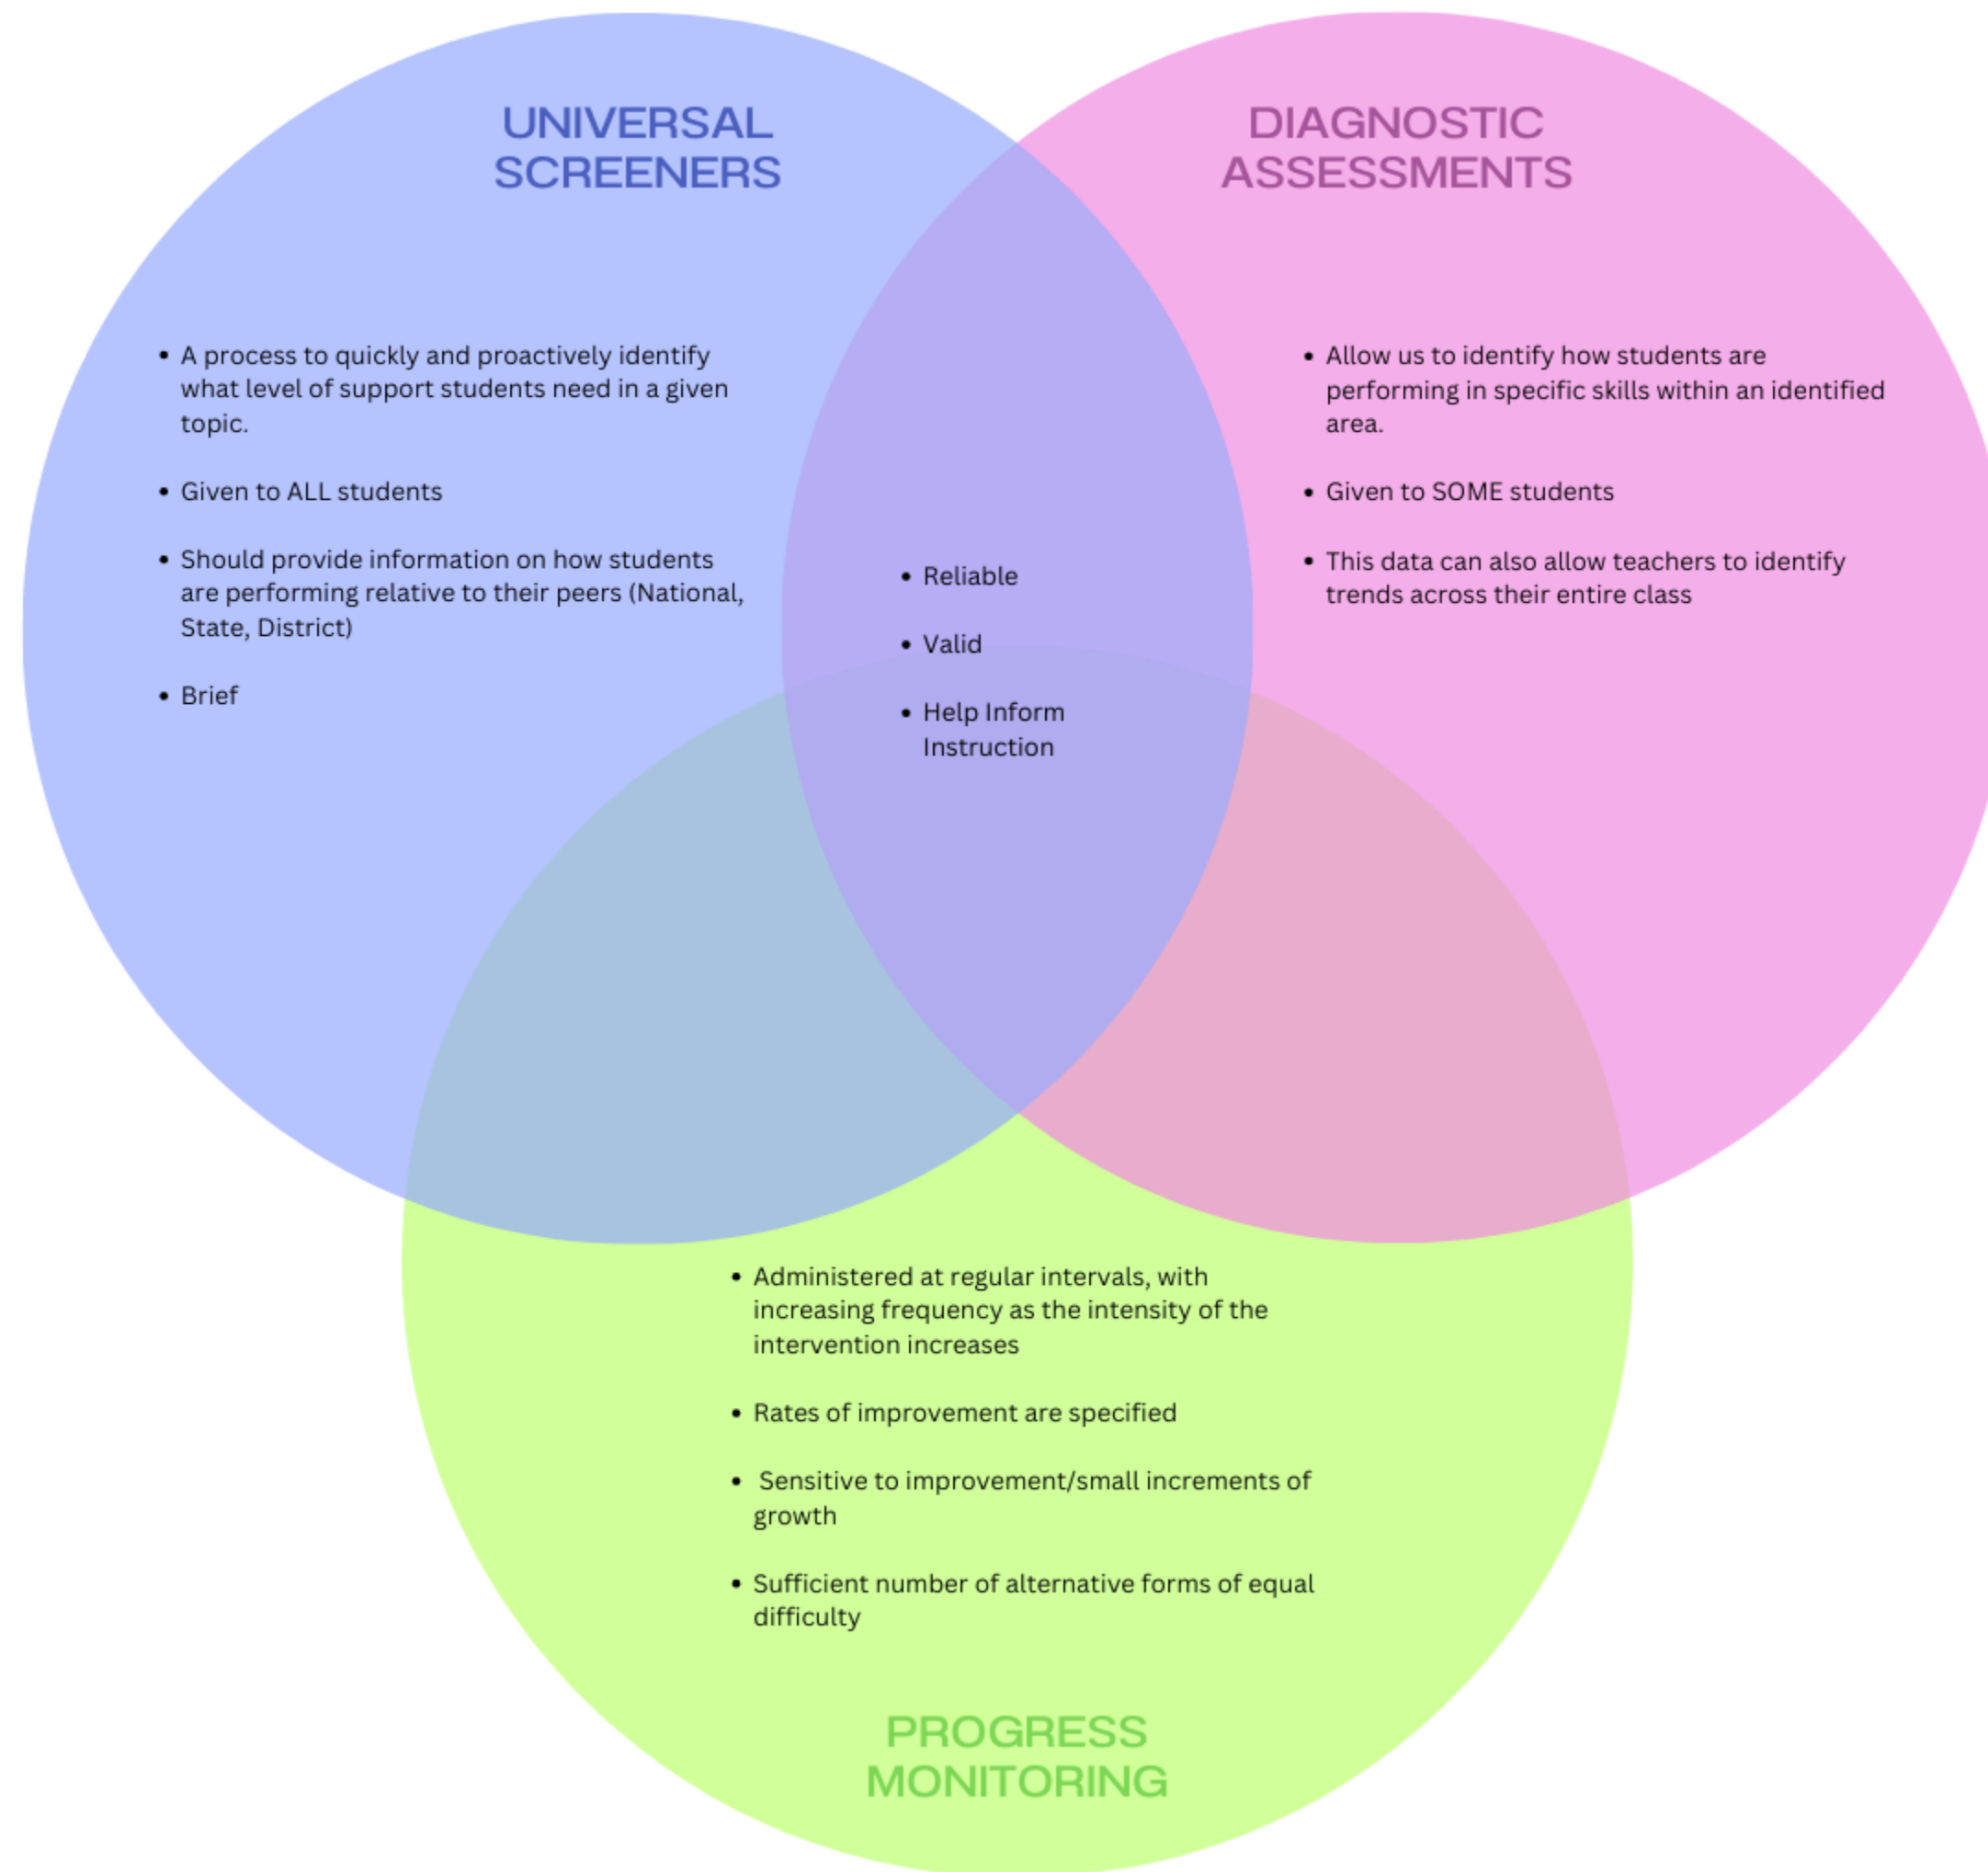

Sandia Elementary
10/20/23

Today's Goals

- Define Assessment, Rigor, and Vertical Alignment
- Learn best practices in assessment and strategies to increase rigor
- Better understand how standards, curriculum frameworks, assessment, and collaborative planning contribute to vertical alignment.

Types of Assessment

With your group, log into the Jamboard and brainstorm assessments you already use that fall into each category.

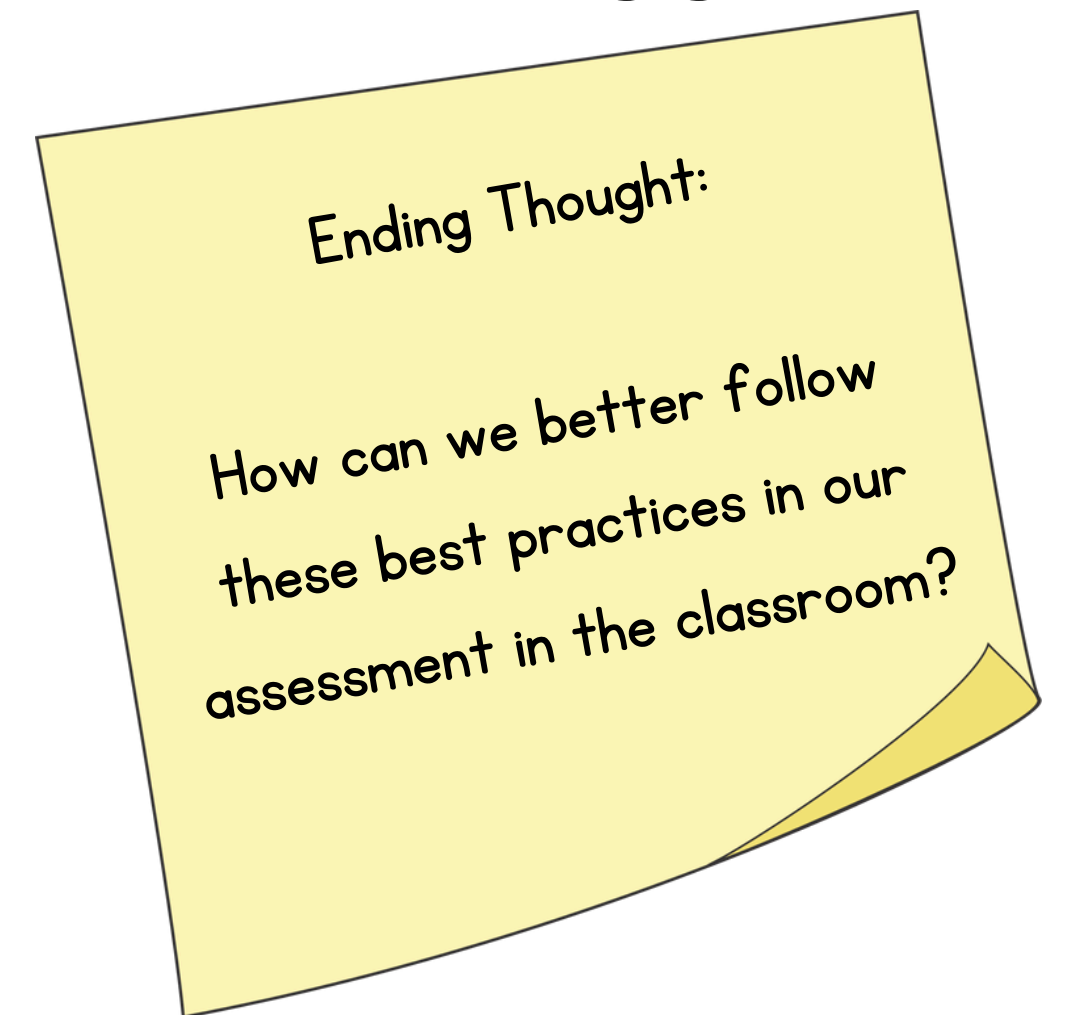

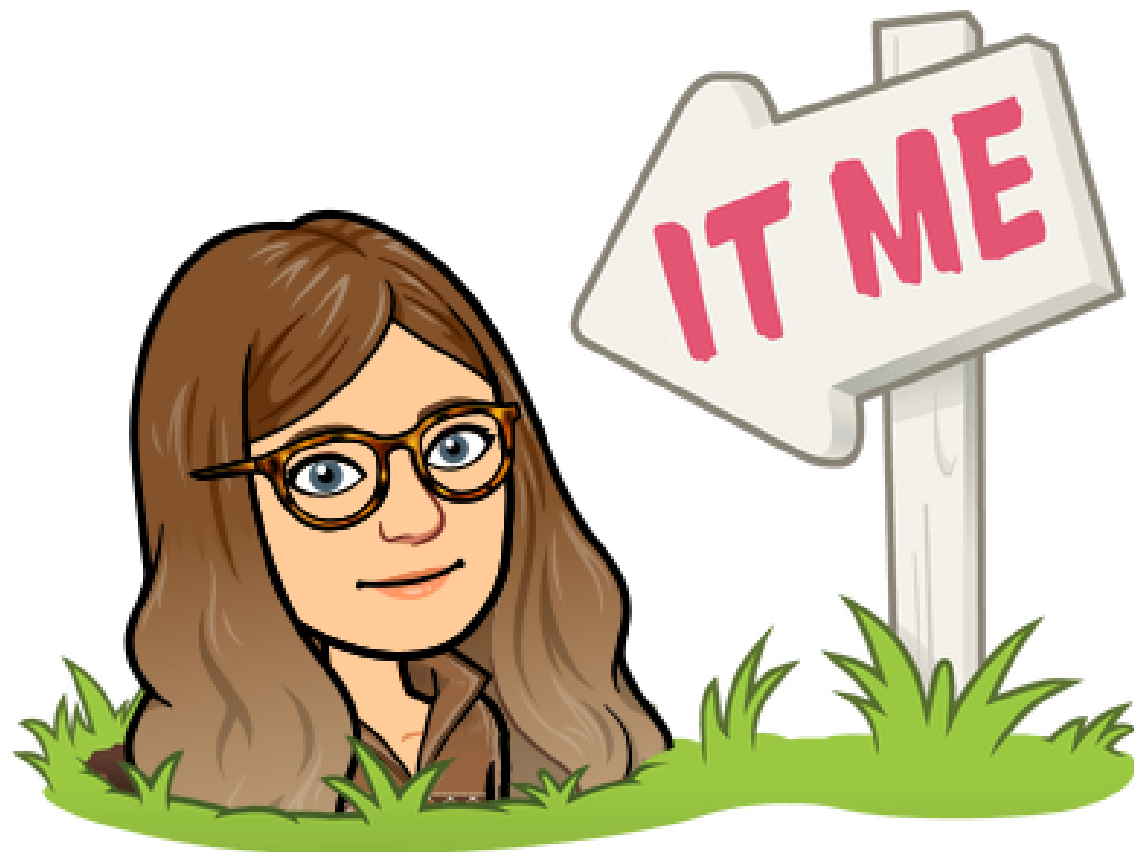

Assessment Best Practices

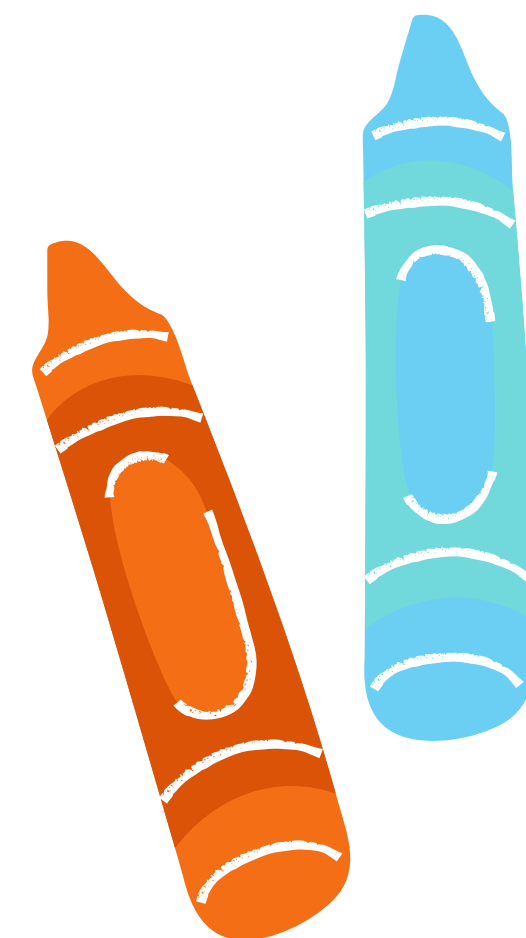

- Grounded in clear learning objectives
- Authentic
- Open Ended Assessments should have a clear rubric or scoring guide

A yellow rectangular sign with a hand-drawn border, featuring a small yellow exclamation mark on the left side. The word "RIGOR" is written in the center in a bold, dark grey, sans-serif font.

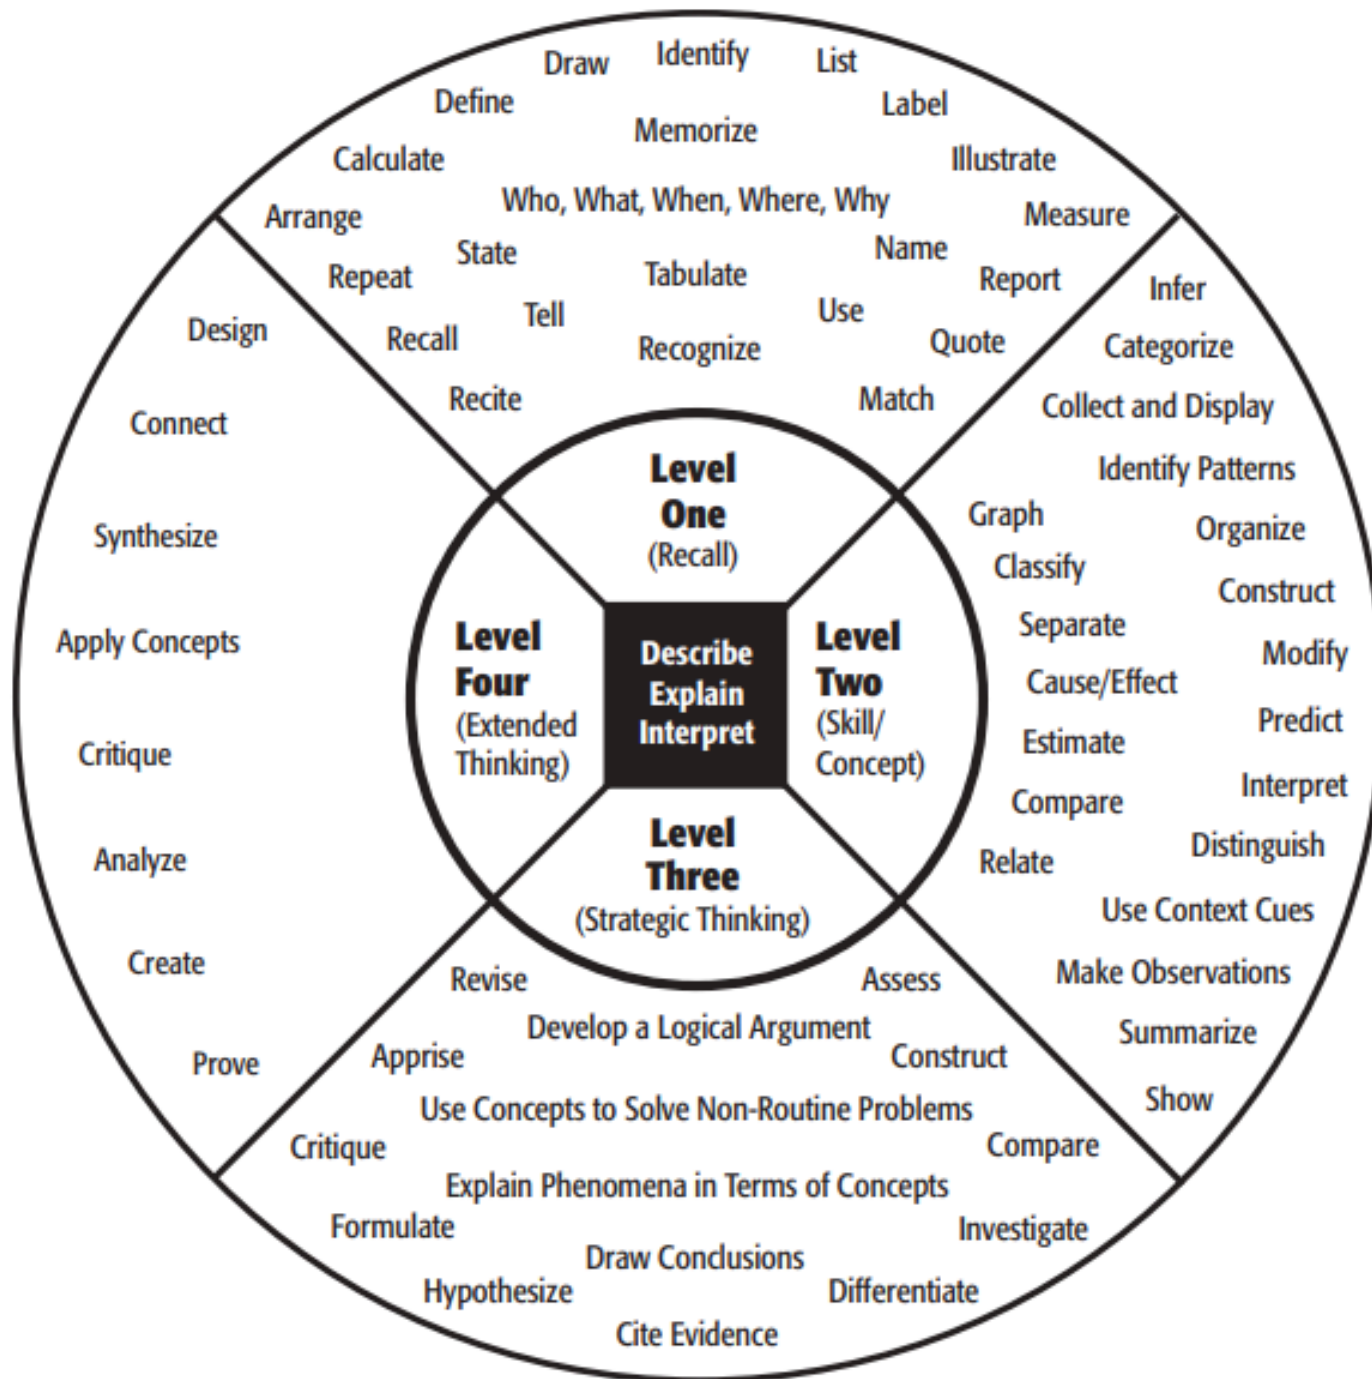

RIGOR

What do YOU think this word
means?

A thick, horizontal yellow brushstroke underline positioned beneath the question text.

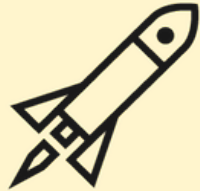

Depth of Knowledge (DOK) Levels

It's all about the verbs!

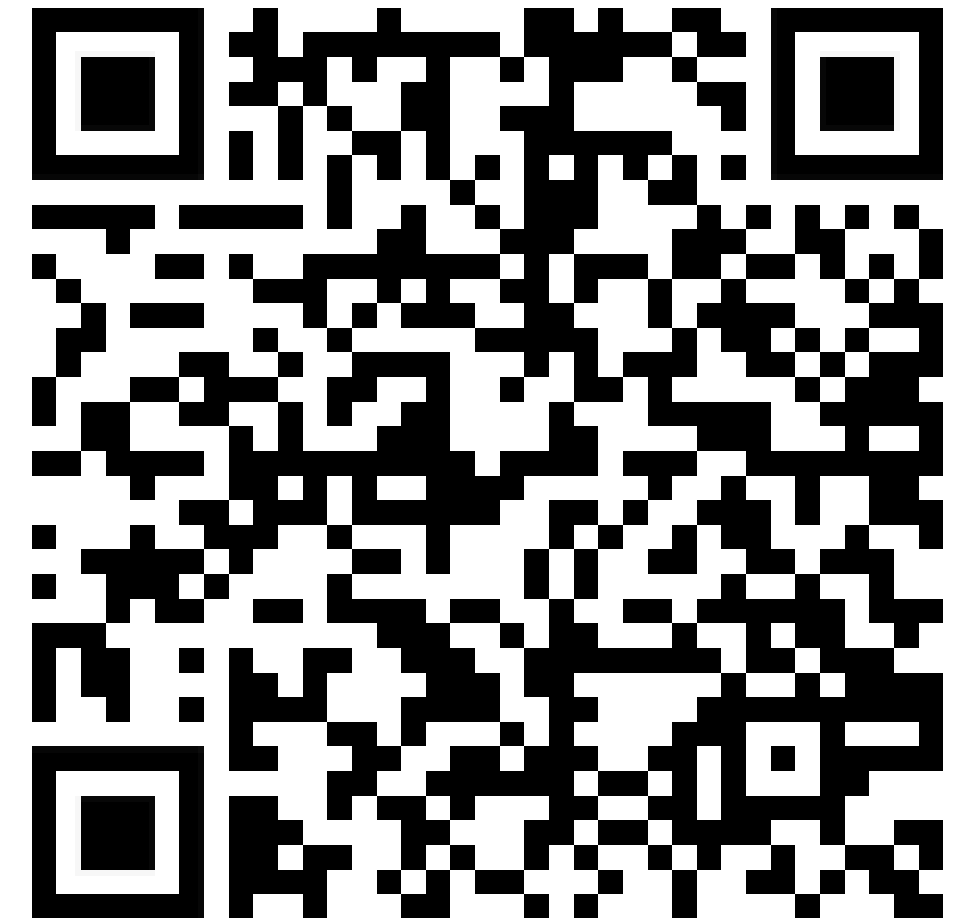

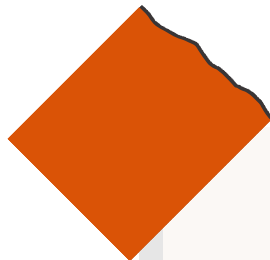

Important things to remember:

- Not all lessons need to be at the highest level of rigor
- Make sure you address the standard to the level of rigor that will be asked for mastery
- Assessment questions can be tiered according to rigor

					
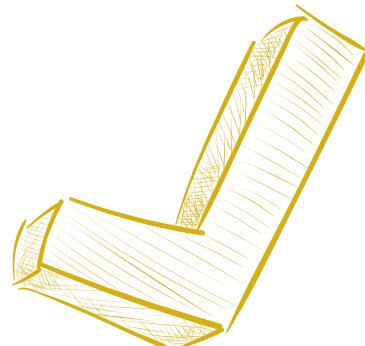

Remember	Understand	Apply	Analyze	Evaluate	Create
Retrieving relevant knowledge from long-term memory.	Determining the meaning of instructional messages, including oral, written, and graphic communication.	Carrying out or using a procedure in a given situation.	Breaking material into its constituent parts and detecting how the parts relate to one another and to an overall structure or purpose.	Making judgments based on criteria and standards.	Putting elements together to form a novel, coherent whole or make an original product.
<i>Example verbs:</i> Recognizing Recalling	<i>Example verbs:</i> Interpreting Exemplifying Classifying Summarizing Inferring Comparing Explaining	<i>Example verbs:</i> Executing Implementing	<i>Example verbs:</i> Differentiating Organizing Attributing	<i>Example verbs:</i> Checking Critiquing	<i>Example verbs:</i> Generating Planning Producing

- Find your grade level's page
- Look over the standard
- Write 3-4 sample assessment questions that address the standard at different levels of rigor using Blooms Taxonomy OR DOK level

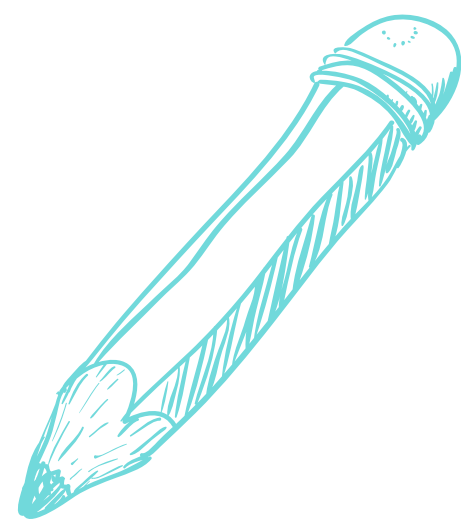

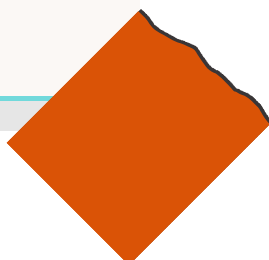

Vertical Alignment

the how and when of what's taught. It's about linking lessons, skills, and assessments together as a holistic experience. It helps prioritize, focus, reinforce, and place learning in new contexts.

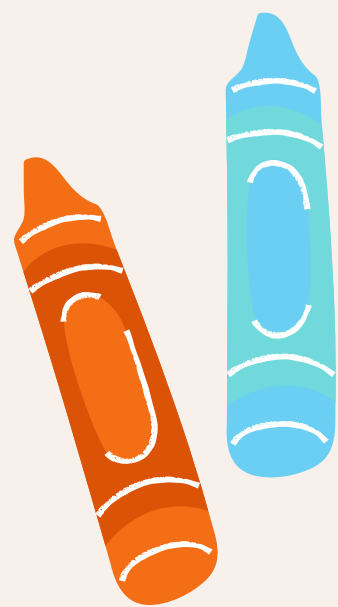

-Powerschool

- *What is Sandia already doing to promote vertical alignment?*
- *How can vertical alignment help students and teachers?*
- *Why is vertical alignment especially important when adopting structured literacy?*

Homework

Using your Mastery Connect Data, Identify the top 3 questions student's struggled with and the standard those questions most closely align with.

Thank you so much for
your time and all of your
hard work today!

REMEMBER
• that you are •
AMAZING
